THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES WITHIN THE MEANING OF THE ESPIONAGE ACT OF U. S. C. 32 AND 34, AS AMENDED. ITS TRANSMISSION OR THE REVELATION OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

50X1-HUM

The following is a report on the production of various Hungarian factories, steel plants, and construction work as of October and November 1950.

1. Ganz and Company, Budapest. There are 1,700 workers in the War Materials Department. Work is carried out in two 8-hour shifts. There is a constant shortage of skilled workers. The main production is gun parts.
2. The Rimaurány Salgótarjáni Machine and Iron Works, Salgótarján. For the first time since the war, all four blast furnaces are in operation. Production includes "csöperem" (flanges of iron pipes or tubes) Model C. 12. The monthly output of the factory is 100 carloads of iron goods.
3. The Nitro-Chemical Industrial Company, Füzfő. The factory is being enlarged. There are 2,000 building workers employed. There are 4,000 plant workers. Their movement within the plant is strictly controlled. One section of the factory produces 2,500 kg. of trinitrotoluol per day.
4. The following are locations of underground fuel stores with a capacity of over 30,000 tons: Váchartyán, Ocsa, and Felcsút.
5. Bodajk Coal Mines. These mines, located northwest of Székesfehérvár, produce 60 carloads of brown coal per day. A new railway line was being constructed from Bodajk to the mines at Balinka.
6. The Hungarian Underground Construction Enterprise (Mélyépítő Nemzeti Vállalat). This enterprise is engaged on construction work at Törökbalint, approximately 15 km. west of Budapest.\*

\* Comment: This may be an extension of the munition depot which was built into the hills before 1940.
